[illegible]

Figure 1 consists of two histograms side-by-side. The left histogram is titled 'train' and the right is titled 'test'. Both histograms have 'Number of non-zero elements' on the x-axis, ranging from 0 to 10000, and 'Frequency' on the y-axis, ranging from 0 to 100. The 'train' histogram shows a peak frequency of approximately 100 at 1000 non-zero elements. The 'test' histogram shows a peak frequency of approximately 100 at 1000 non-zero elements.
